Professional Summary

Final-year **Computer Science Engineer at VIT (8.44 CGPA)** with an elite academic record (**9.60 CGPA in 10th, 9.20 CGPA in 12th**) and rare proficiency in **Technical Storytelling**. Co-Founder of a technical content initiative (CatCatchCode), where I translated 100+ complex MERN and AI modules into high-impact B2B-style educational narratives for 100+ users. Expert in **Product Positioning**, identifying end-user pain points, and bridging the gap between deep-tech engineering and business value propositions. Seeking to leverage analytical rigor and data-driven sales reporting to drive growth and sales enablement in a high-stakes corporate environment.

Education

Vellore Institute of Technology B.Tech in Computer Science & Engineering	June 2026 (Expected) CGPA: 8.44 / 10.0
DAV Public School, Dudhichua Senior Secondary (Class XII)	2019–2021 CGPA: 9.20 / 10.0
DAV Public School, Surya Vihar Secondary (Class X)	2018–2019 CGPA: 9.60 / 10.0

Skills

Core Competency: Technical Storytelling, B2B Product Positioning, **Feature-to-Benefit Translation**, Content Strategy
Author & Strategy: Published Author (**Amazon**), Prompt Engineering, **Market Analysis**, User Persona Development
Analytical Thinking: Sales Performance Reporting (**Excel**), KPI Tracking, Data Storytelling, Business Intelligence
Technical Literacy: **MERN Stack**, **AI/LLM Integration**, SDLC, API Workflows (Simplifying deep-tech for C-suite)
Tools & Platforms: **Advanced Excel (Pivot/Slicers)**, MS PowerPoint (Pitch Decks), **KDP Publishing**, GitHub, Trello

Publications

- Steal This AI Prompt: Business Ideas, Tools & Smart AI Hacks** | *Amazon* [\[Link\]](#)
- Authored a guide on **Prompt Engineering** and AI automation, simplifying complex LLM workflows for non-technical users.
 - Developed actionable frameworks for AI tool integration, translating deep-tech capabilities into high-value user benefits.
- Explain Like You Sell: Turning Tech Products into Stories** | *Upcoming* [In Progress](#)
- Developing a playbook on **Technical Product Positioning** and B2B storytelling for SaaS and Industrial AI sectors.
 - Synthesizing engineering logic with sales psychology to create a "Feature-to-Value" methodology for technical marketers.

Product Strategy & Content Leadership

- CatCatchCode — Technical Content & Ed-Tech Strategy** | *Co-Founder* [\[Link\]](#)
- Orchestrated a brand narrative for an AI-integrated platform, translating complex Full-Stack theory into 100+ high-impact modules.
 - Led a cross-functional team to deliver a content ecosystem, ensuring messaging consistency across YouTube, LinkedIn, and documentation.
 - Bridged the gap between technical complexity and user retention, serving as the primary "Technical Translator" for 100+ students.
 - Refined the platform's value proposition through iterative user feedback, resulting in a 30% increase in engagement and clarity.
- ProjectHub — Intelligent Workflow & Product Messaging** | *Full-Stack* [\[Link\]](#)
- Engineered a MERN lifecycle system, framing complex auditing features as "Business Efficiency Gains" rather than technical specifications.
 - Developed distinct user personas for Students and Faculty to tailor the product story and UI/UX flows to specific stakeholder pain points.
 - Integrated AI engines using Prompt Engineering to generate structured, user-centric feedback for academic document validation.
 - Authored all platform documentation and onboarding copy to ensure 100% system accessibility for non-technical users via simplified communication.
- Excel Sales Performance Dashboard** | *Data Analysis, MS Excel* [\[Link\]](#)
- Designed interactive **Executive Dashboards** using Pivot Tables and Slicers to track high-level Sales KPIs and trends.
 - Translated raw transactional datasets into **visual narratives**, reducing manual reporting time and enabling data-driven decisions.
 - Automated status reports to visualize profit variance, providing stakeholders with clear, actionable business insights.
 - Implemented data cleansing workflows to ensure 100% accuracy in **Sales Performance** and Order Status reporting.

Certifications

- Python Essentials (VIT)** — May 2024 [\[Link\]](#)
- Excel Essential Training** (LinkedIn Learning) — Feb 2023 [\[Link\]](#)
- MERN Full Stack Certificate** — Apr 2025 [\[Link\]](#)
