Project Coordination & Leadership Experience

CatCatchCode — Ed-Tech Platform — Project Lead and Coordinator [\[Link\]](#)

- Led a cross-functional team of 2 members, assigning tasks and conducting weekly review discussions to ensure timely project delivery.
- Managed resource distribution for content creation and technical development, ensuring optimal utilization of team efforts.
- Defined project timelines and monitored progress against set goals, successfully delivering 100+ technical modules on schedule.
- Gathered feedback from students (end-users) and collaborated with the dev team to implement feature updates.

Scholara — Academic Workflow System — End-to-End SDLC Management [\[Link\]](#)

- Managed the full Software Development Life Cycle (SDLC) from requirement gathering to deployment of a workflow automation platform.
- Defined state-driven approval workflows (Proposal → Approval → Final Upload) and ensured adherence to process guidelines.
- Prepared technical documentation and user guides for Faculty and Student portals to ensure smooth adoption.
- Identified potential security risks (RBAC violations) and coordinated with the development phase to implement validation rules.

Satsang Seva — Digital Preservation Initiative — Process Improvement [\[Link\]](#)

- Defined and implemented a structured workflow for the digitization of 50+ years of archival data.
- Collaborated with a distributed team of contributors to ensure consistency and adherence to quality standards.
- Assigned digitization targets to team members and followed up regularly to track status and resolve blockers.

Analytical Projects

Excel Sales Performance Dashboard — Reporting, Data Analysis, MS Excel [\[Link\]](#)

- **Dashboard Creation:** Designed interactive dashboards using Advanced Excel (VLOOKUP, HLOOKUP, Pivot Tables & Slicers) to track key performance indicators (KPIs).
- **Status Reporting:** Generated automated status reports to visualize profit variance and sales trends, supporting data-driven decision-making.
- Designed executive-level dashboards to visualize critical KPIs (Sales Trends, Order Status), reducing manual reporting time and enabling data-driven strategic decisions.
- Implemented rigorous data cleansing workflows to resolve inconsistencies and missing values, ensuring 100% accuracy in project status reports.

Certifications

Python Essentials (VIT) — May 2024 [\[Link\]](#)
Excel Essential Training (LinkedIn Learning) — Feb 2023 [\[Link\]](#)
MERN Full Stack Certificate — Apr 2025 [\[Link\]](#)
